Energy class A+

Octans is a simple retrofit downlight for indoor use with a plastic frame. The downlight is adjustable, making it possible to orient the light to where you want. Furthermore, it is quick and easy to mount Octans via a screwless plug-in connection and a twist-lock system. The flexible cutting diameter (Ø68-76mm) makes Octans very useful, in particular for renovation projects. Octans includes a GU1 LED bulb of 345lm.
