TIAKI is a round downlight with integrated LED, allowing for parallel connection. TIAKI has MoodMaker functionality, which makes it possible to dim the light in two steps without the use of a dimmer, simply using a standard electrical outlet, while the downlight automatically remembers the last light setting as well. TIAKI allows you to switch between 6lm at 4K and 345 lm at 27K. The downlight even meets protection class IP65, which makes it usable in humid environments.
